About Me

Results-driven web developer with over 9 years of extensive experience in designing and developing dynamic web applications and 3-tier architectures. Adept at crafting innovative solutions that merge cutting-edge technologies with client objectives. Proven track record of success in delivering robust web applications and services within the Microsoft Visual Studio .NET environment, utilizing C#, ASP.NET, MVC, ASP.NET CORE, Angular, WEB API, ADO.NET, and SQL Server.

Skills

- Technical and Development Skills
- Project Management and Delivery
- Problem Solving and Innovation
- Critical Thinking and Optimization

TECHNICAL SKILLS

- **Languages**
Proficient in C# and/or VB.NET, with substantial experience writing clean, efficient, and maintainable code.
- **Frameworks**
Experienced in using the Microsoft.NET framework to create strong and scalable applications, including ASP.NET for web development and WinForms for desktop applications.
- **Web Development**
Proficient in building dynamic web apps with ASP.NET MVC and/or ASP.NET Core, as well as HTML, CSS, JavaScript, JQuery and front-end frameworks like Angular.
- **API Development**
Experienced in building and implementing RESTful APIs with ASP.NET Web API or ASP.NET Core Web API, ensuring seamless communication between application components.
- **Database Management**
Proficient in SQL Server database management, I excel in crafting optimized SQL queries, designing stored procedures, and triggers.
- **Version Control**
Proficient in using version control systems such as Git, SVN, or TFS for code collaboration, branching, merging, and version management.
- **Agile Methodologies**
Proficient in Scrum practices, including daily stand-ups, sprint planning, reviews, and retrospectives. Collaborated with teams to prioritize tasks and deliver high-quality software on time, promoting continuous improvement.
